Dawid Michał Mikuła

I am a student at the Lublin University of Technology, seeking opportunities to develop skills in manual testing, and eventually in automated testing as well. I possess knowledge in the field of manual testing, which I am striving to expand using available resources. Additionally, on the GitHub platform, I have a repository documenting my tests on sample applications and SQL queries. This project not only allows me to practically apply my acquired skills, but also serves as a portfolio of my work and determination in striving for continuous development in the field of software testing.

Skills

Technical:

- Creating PL/SQL queries
- HTML + CSS
- Postman
- Version control system GIT
- Jenkins
- TestRail, qTest
- Jira
- Confluence
- CISCO technologies
- Writing test cases

Additional:

- Independence
- Good time management
- Communication skills

Languages

Polish - Native

English - B2

Intersets

I am interested in the implementation of computer science in the field of electronics and electrical engineering, including building automation and smart home technology.

Experience

2022-10 - 2023-05	**Technical Support**
	DORADZTWO INFORMATYCZNE I BIZNESOWE
	Michał Adamowicz, Kunki

Tasks:

- Remote technical troubleshooting
- Technical support for IT infrastructure devices, including networking
- Network infrastructure management (expansion, optimization)
- Equipment exchange and workstation upgrades
- Data input and analysis
- Reporting completed work

Tools:

- TeamViewer
- Diagnostic programs for computer components
- Microsoft Office Suite
- MS Teams

2022-06 - 2022-09	**An order to organize and conduct the purchase of agricultural fruit**

Education

2020-10 - 2024-01	**Engineering Applications of Computer Science in Electrical Engineering**
	Lublin University of Technology

2016-09 - 2020-05	**IT Specialist**
	State Schools of Construction and Geodesy, Lublin

Certifications

ISTQB ® Certified Tester Foundation Level

The basics of manual software testing

PHP & MySQL from scratch

Trainings

2023-05-25	**Hacking web applications is easy**
	Transition Technologies-Software Sp. z o.o. and Lublin University of Technology
